PRODUCTION DATA REPORT

Pursuant to the request of the Fourdrinier Kraft Board Institute, The Institute of Paper Chemistry has tabulated the production data submitted by the various F.K.I. member mills in tabular form to give (1) total production by quarters, (2) production by grades by quarters. The data obtained herein cover the four quarters of 1952. The member companies submitting data are as follows:

The Brown Paper Mill Co., Inc.

The Chesapeake Corporation of Virginia

Continental Can Company, Inc.

Gaylord Container Corporation

International Paper Company

St. Joe Paper Company
Macon Kraft Company

National Container Corporation

St. Regis Paper Company

Southern Paperboard Corporation

Union Bag and Paper Corporation

West Virginia Pulp and Paper Company

Report forms have been forwarded to the various companies for reporting the production for the first quarter of 1953, and as soon as these have been returned, a report will be issued covering the production for this period. Present plans are to issue these reports at quarterly intervals showing the production for the preceding quarter. Charts will be included and it is hoped that these may be useful as running logs, thereby illustrating the trend of production

since they will include past as well as present production data.

The total production per quarter for the year 1952 for the mills participating in this study, is given in Table I and graphically illustrated in Figure 1. The production by grades per quarter may be seen in Table II and the major tonnage grades--namely, 26-lb., 33-lb., 38-lb., 42-lb., 47-lb., 69 and 90-lb. are illustrated in Figures 2, 3, 4, 5, 6, 7 and 8, respectively.

TABLE I
TOTAL PRODUCTION OF ALL GRADES
(1952)

Quarter	Total Tonnage	Per Cent of Yearly Tonnage
1st	625,391	24.1
2nd	613,101	23.6
3rd	648,005	25.0
4th	707,556	27.3
Yearly Tonnage	2,594,053
